Hacash

2023

Preface

The past year has been one of deep and interlocking crises that are growing in scale and severity. The war in Ukraine has caused distress for millions of people in and the high inflation made major economies struggle with the recession. In the crypto world, impact of Luna/Terra and collapse of FTX is still ongoing. All these negative news has added barriers of trust to the crypto industry. For Hacash, it successfully survived another year, attaining many unexpected achievements. Just as Ethereum's Founder, Vitalik Buterin, mentioned that a hyperinflation-resistant and globally accessible stablecoin that can withstand all types of conditions, both on-chain and in the broader macroeconomy, would be revolutionary for the industry, Hacash Community will always follow the essence of whitepaper, to educate people that it is impossible to cheat on the money supply to gain wealth, and the civilization of human society depends on the soundness of money. Sound money would be a solid basis for business and capital accumulation.

Contents

Top Ten Events in 2022:

- New Highest Price of HACD
- Release of Layer 3 Whitepaper
- New High of Hash Rate
- Cooperation with Hacash.Diamonds
- HACD New Visualizations
- New Highest Price of HAC
- Success of Layer 2 Settlement Channel
- Tests of GPU Mining
- Hacash Web Off-Line Wallet
- HAC Block Awards : 5 さ

Contents

Top Ten Trends in 2023:

- Growth of GPU Mining
- Occurrence of Layer 2 Service Provider
- Launch of Layer 3 Infrastructure
- HAC Listed on New Exchanges
- Innovative HACD Visualization Proposals
- New Transaction Methods of HACD
- HAC Listed on Mobile Crypto Wallet
- Fusion of AIGC and HACD
- Occurrence of On-Chain Lending
- HAC Block Awards : 8 さ

Contents

Top Ten Figures:

- Holding 15 % HAC - European Mining Firm
- Biggest Mining Pool - WoWPool
- Co-Founder of HacashNews - Vincent
- Co-Founder of Hacash.com - Ken
- Top Code Contributor - Jojoin
- Most Active Evangelist - Ben
- Founder of Hacash Market - Miao
- Most HACD Collected - 1BBB5
- Developer of Bidding Tools - F.Q
- First Hacash Youtuber - Trevor

Top Ten Events In 2022

New Highest Price Of HACD

77,000 USDT

May 3rd By Family Office

UBUXAB #50638

# Release Of Layer 3 Whitepaper

L 1 : Sound Cryptocurrency
L 2 : Payment Network
L 3 : Multi-Chain System

August By Hacash.com
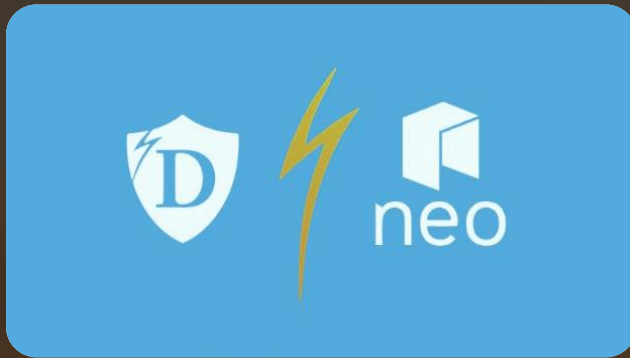

New High Of Hash Rate

Hash Rate : 67.54 GH/S

Oct 7th By M.P.Stats

Network Hashrate: 67.54G

Known Pools: 0

Sep   07 Oct , 2022   Oct

Cooperation With Hacash.Diamonds

Partner with Neo blockchain to promote PoW NFT in May

Join Incubation Program by Neo & DraperU Launchpad in July

Top Ten Trends In 2023

Growth Of GPU Mining

More experienced developer and teams are encouraged to raise the efficiency of GPU mining

Occurrence Of Layer 2 Service Provider

A successful test in Layer 2 is only a start, more service providers are encouraged to join so as to facilitate and decentralize L2 settlements

Launch Of Layer 3 Infrastructure

The soundness of Hacash provides a decentralized solid basis for financial flexibility. The L3 proposal is currently in financing stage, much likely the preview version will launch in 2023
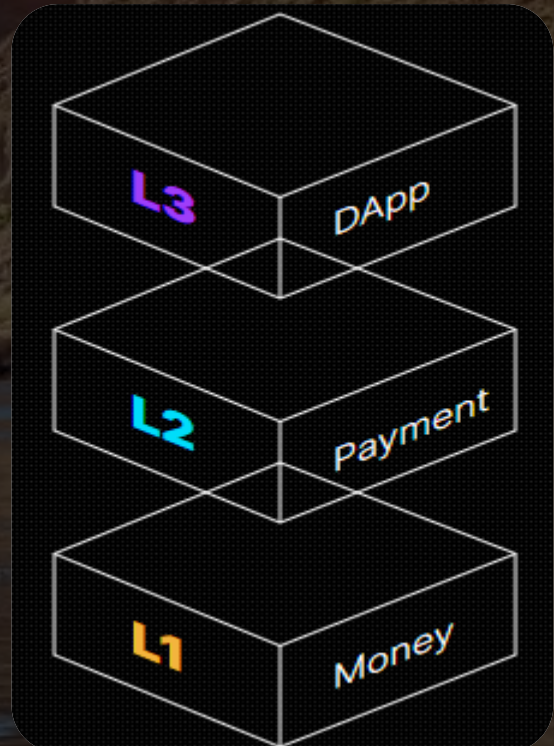

HAC Listed On New Exchanges

HAC is listed on Vindax and Dex-trade. Community plans to promote HAC to be listed on new exchanges

Innovative HACD Visualization Proposals

HACD now has 3 visualization proposals : Diamond, Brilliance and Game of Life, the new PoW Art Standards may attract Generative Artists to create new artworks
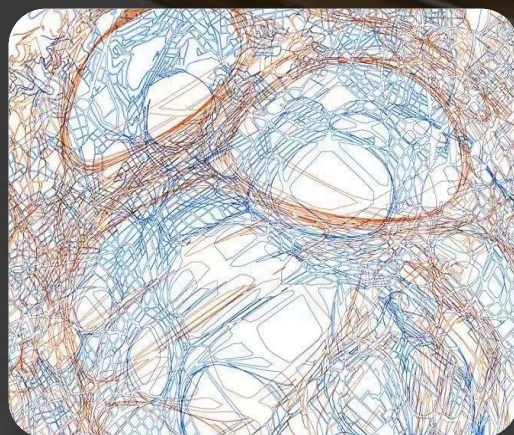

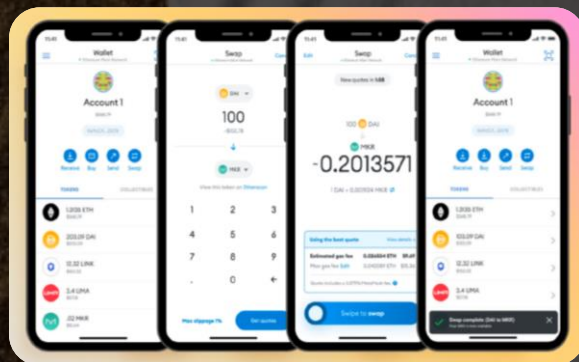

New Transaction Methods Of HACD

The transaction of HACD relies majorly on OTC, ' 3 Steps Buying ' and DEX. There may appear new transaction methods to facilitate the transaction process

HAC Listed On Mobile Crypto Wallet

The wallets so far are PC wallet and Web Off-Line wallet. A third-party mobile crypto wallet is in great need

Fusion of AIGC And HACD

HACD, as representatives of PoW Arts, are naturally compatible with other forms of art, including AIGC. The total number of HACD, in other words, 16,777,216 units of HACD need random combination of elements in where AIGC has leading advantages

Occurrence Of On-Chain Lending

HIP-2 3 4 proposals about loans and lending were proposed in early stages, it is designed to realize the goal of stable supply of coins. Lending is a crucial financial activity, the occurrence of on-chain lending proposal will be remarkable

HACASH 8 REWARDS PER BLOCK COUNTDOWN

341	14	21	35
Days	Hours	Minutes	Seconds

If Bitcoin got halving...
Hacash got Fibonacci!

HAC Block Awards : 8 ㆜

Block awards will rise to 8 ㆜ and maintain for ten years after 341 days

Top Ten Figures

Holding 15 % HAC - European Mining Firm
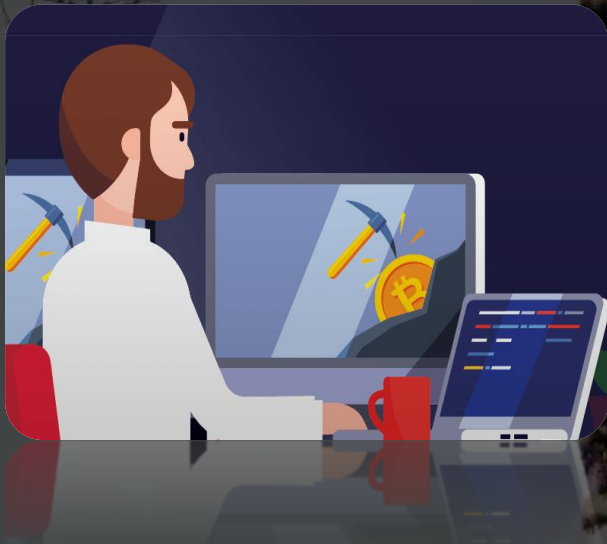

The address 18Yt6U... started mining HAC and HACD since 2020. It is accordingly a European mining firm, which is, by far, the known largest miner

Biggest Mining Pool - WoWPool

HAC had many small mining pools, and WoWPool is the only lasting pool that survive from competition with giants. Meanwhile, there is zero fee charged.

Co-Founder Of HacashNews - Vincent

Vincent published several educational videos and articles related to Hacash. The establishment of HacashNews brings a concentrated informative media on where everything about Hacash can be found

Co-Founder Of Hacash.com - Ken

Ken established Hacash.com in 2022, and published the concept of Layer 3 in August , which is two months earlier than one mentioned by Vitalik Buterin. Ken is now financing for Hacash.com. It is the most promising tech-driven company on Hacash.

Top Code Contributor - Jojoin

Jojoin has contributed the most coding works for the community. At the same time, Jojoin also developed several application for Hacash.

Most Active Evangelist - Ben

Ben is the most active evangelist in Hacash community. Ben has been tweeting original threads introducing Hacash and replying relevant contents including sound money, token economy and mining coins for more than two years

Founder Of Hacash Market - Miao
